Issue Ref

K1020

Cleaning Solvent Compound Aerosol

0310A

1. Identification of substance/preparation and company/undertaking

Eurochem Tel/Fax: 01684 893233

2. Composition/information on ingredients

Hazardous Ingredients:	CAS	EINECS	%
Propellant			
n-Butane	106-97-8		20-40
Propane	74-98-6		
O.E.S.:	L.T.E.L. 8 hours - 600 ppm		
	S.T.E.L. 10 minutes - 750 ppm		

Non-hazardous Components:

Iso-paraffin.

3. Hazard Identification

Overexposure Effects:

Skin Contact: May cause irritation and redness after prolonged or repeated contact.

Eye Contact: Irritation.

Ingestion:

Inhalation:

Excess quantities may cause headaches and drowsiness.

CHIP LABELLING INFORMATION

Risk Phrases: NOT TO BE
USED ON LIVE ELECTRICS

Safety Phrases:

S16 Keep away from sources of ignition - No Smoking

Symbol Required: Extremely Flammable

4. First Aid Measures

Eye Contact: Wash with luke warm water for at least ten minutes. If irritation persists seek medical attention.

Skin Contact: Wash off with soap and water. Apply emolient cream.

Inhalation: Move casualty to fresh air, restore or support breathing as necessary. Seek medical attention if difficulties persist.

Ingestion: Rinse mouth out with water and seek medical attention if irritation persists. Do not induce vomiting.

5. Firefighting Measures

Heating containers will cause pressure rise, with risk of bursting.

Bursting cans can be forcibly ejected from a fire. Cans should be kept cool by using water spray.

6. Accidental Release Measures

Packaging limits significant releases. Spills may be contained and absorbed in sand or inert material. Minor spills may be allowed to evaporate, larger releases should be contained for controlled disposal.

7. Handling & Storage

Pressurised container containing extremely flammable propellant. Do not incinerate in the open even when empty. Do not spray on or near a naked flame or hot surfaces. Do not smoke, eat or drink whilst handling product. Prevent contact with eyes and skin.

8. Exposure Controls / Personal Protection

Use gloves and overalls to prevent contact with skin and eyes.

Always ensure good ventilation and avoid inhaling vapours.

9. Physical and chemical properties

Aerosol Spray

10. Stability & Reactivity

Product is stable and is not considered to have dangerously reactive properties. Avoid contact with oxidising agents.

11. Toxicological Information

Mammalian toxicity is considered to be moderately low.

12. Ecological Considerations

The product does not contain materials considered to have a adverse effect on the environment warranting specific controls.

Contamination of land and water courses should be avoided.

13. Disposal Considerations

Use licensed contractor for disposal by tipping or incineration.

14. Transport Information

UN No. Road 1950. UK Road class 2.1.

ADR Class No. 2.1

ADR Label No. 2.1 RID Class No. 2.1

Un No. Sea 1950

Proper shipping name Aerosols flammable

Air Class 2.1

ADR Class Class 2:gases

Tunnel restriction code D.

IMDG Class 2.1 UN No. Air 1950

15. Regulatory Information

The Chemicals (Hazard Information & Packaging for Supply) Regulations (1994)

The Chemicals (Hazard Information and Packaging for Supply)(Amendment) Regulations 1998.

The Carriage of Dangerous Goods by Road and Rail (Classification, Packaging and Labelling) Regulations (1994)

Control of Substances Hazardous to Health Regulations (1988)

16. Other Information

The information given above does not constitute the users own assessment of workplace risk as required by the Health & Safety at Work Act (1974), C.O.S.H.H. Regulations (1988) et al. The data given is considered accurate and is based upon current knowledge and experience. No warranty is expressed or implied with regard to the product's properties.
